

Reading and programming Exercise

Meant only to improve your proficiency in this subject - no evaluation done!

1. The Unreasonable Effectiveness of Recurrent Neural Networks
(<https://karpathy.github.io/2015/05/21/rnn-effectiveness/>)
2. Try this program to learn more about the internals of the character based RNN - Source Credit - Andrej Karpathy. To run this application, create your own "input.txt" (should be simple plain text file) and point to its location. It runs without any modification.
Minimal character-level language model with a Vanilla Recurrent Neural Network, in Python/numpy
(<https://gist.github.com/karpathy/d4dee566867f8291f086>)
